TENDER FOR SUPPLY AND INSTALLATION OF TWO WIND LIDAR WEATHER STATIONS.

(Open International)

1st November, 2021

Clarification No. 4

In Accordance with the “Tender for Supply and Installation of Two Wind Lidar Weather Stations.” KenGen hereby issues **Clarification No.4**

NO.	BIDDER'S QUESTION	KENGEN'S RESPONSE
1	Dear Team, Does the site where the LIDARs will be installed have cellular reception? If not a satellite modem will be required. Please advise since we can assist with the latter (if required).	<p>Lidars will be supplied and installed as specified in the tender doc. See below</p> <p>2.1. The stored data shall be retrievable via memory card, USB/LAN to a PC/laptop and a PCMCIA card or any other compact and commercially available solid-state memory device.</p> <p>2.2. The system shall provide a complete health status of the battery, and other components. The health data shall be stored as a log record and shall be retrievable via the display when required.</p> <p>2.3. The system should be able to transmit the data remotely and received through GSM communication network between each Lidar on site via email or to KenGen servers.</p>

ACKNOWLEDGEMENT OF CLARIFICATION NO.3

We, the undersigned hereby certify that the Clarification is an integral part of the document and the alterations set out in clarification has been incorporated in the Tender for Proposal.
