TENDER FOR SALE OF CERTIFIED EMISSION REDUCTIONS (CERs) (Re-Tender)

RFx 5000017132

(Open International)

Dated: **5th June, 2025**

Clarification No.1

In accordance with the **Tender for Sale of Certified Emission Reductions (CERs) (Re-Tender)**, KenGen issues an **Clarification No.1** as follows:

No.	Clarification Sought	KenGen's Response
1	Tender Closing date	Refer to Addendum 2
2	You have issued an Addendum which is not best practice for the industry and which clearly locks out potential bidders without experience. Can this be done away with?	Previous participation in Emission Reduction trading/transactions of CER's or VER's is important to facilitate delivery of the assignment, the tender further allows Joint Ventures under MR 14 which provides bidders an opportunity to meet the bid requirements by entering into Joint Ventures with firms with Industry experience.
3	We have participated in the two previous bids, both for the 4.5M and 1.8M CERS. The current bid has combined the two previous bids, with very DIFFERENT VINTAGES, which is now OBFUSCATING the trading market by combining TWO distinct certificates into one. This is not right and the two should be separated, so that the old vintage remains old and the new vintage remains new.	Refer to Addendum 2 : The price schedule has been amended to indicate the issuance period for each batch of CER's. Bidders can choose to submit a bid for CER's for specific vintage/line Item/ individual projects or submit bids for all the line items/CER's on offer

SUPPLIER ACKNOWLEDGEMENT OF CLARIFICATION No.2

We, the undersigned hereby certify that the Clarification is an integral part of the document and the alterations set out in Clarification has been incorporated in the Tender Proposal.
