KGN-GDD-028-2024

TENDER FOR SUPPLY OF PRECISION GEOLOGICAL THIN SECTION CUTTING AND GRINDING MACHINE COMPLETE WITH ACCESSORIES.

(Women Enterprises)

Dated: 1st March, 2024

Clarification No.2.

In accordance with the **Tender for Supply of Precision Geological Thin Section Cutting and Grinding Machine Complete with Accessories**, KenGen issues **Clarification No.2** as follows:

	BIDDERS CLARIFICATION	KenGen's RESPONSE
1.	As per the Tender Document, the technical specifications of the Geo Cutting and Grinding Machine, has a high torque dual shaft motor with a power rating of 1.1 kW. However, based on the technical specifications of the required machine, the OEM has advised us that 0.75kW is the recommended power rating as the former could be excessively powerful for the intended application. Kindly advise.	The bidder has to comply with the technical specifications as provided in the tender document

SUPPLIER ACKNOWLEDGEMENT OF CLARIFICATION NO.2

We, the undersigned hereby certify that the Clarification No.2 is an integral part of the document and the alterations set out in Clarification has been incorporated in the Tender Proposal.
