Clarification No.2.

In accordance with the Tender for Supply of Separate or Combined Biocides and Dispersant Chemicals. (Framework Contract for Two (2) Years - Retender), KenGen issues Clarification No.2 as follows:

No	BIDDERS CLARIFICATION	KenGen's RESPONSE
1.	In terms of the BID Bond, " <b>Which bank in the country of Oman</b> " is acceptable for your firm? As declared in the SAP, we are based in Oman.	Bidder may approach any reputable commercial bank, licensed / registered by the Central Bank in their country of domicile. The foreign bank will require to have a corresponding local bank in Kenya, licensed by Central Bank of Kenya (CBK), since the Tender Security/ Bid Bond will be issued directly by the said local bank domiciled in Kenya, on behalf of the bidder's foreign bank.
2.	Any specific bank account needs to be used to deposit the requisite amount?	<p>The Bid Bond/Tender security <b>MUST</b> comply with the format and conditions outlined in the Tender document and be submitted as specified.</p> <p>For a list of local commercial banks licensed by CBK in Kenya, please visit their website at <a href="http://www.centralbank.go.ke">www.centralbank.go.ke</a> .</p> <p>For such tender securities issued locally by a corresponding bank in Kenya, the bidder will require to directly arrange with the local bank or a courier company, to deliver and deposit the bond into our Tender Box at the address provided under Instructions to Tenderers on or before the tender closing date.</p>
3.	How many injection packages are considered to be quoted?	The cooling tower volumes have been indicated and hence proposed volumes of chemical solution are presented based on the specific chemical dosing regime, efficacy and concentration. The vendor is requested to give values as per tender in IBCs.
4.	How many test kits are suggested to be included in the quotation process?	We propose <b>150 test kits</b>

5.	To <b>which Address</b> , the samples should be sent to?	The Submission and Handling of Sample has been stipulated in the Tender Document under <b>TR 6</b>
