TENDER FOR SUPPLY OF TURBINE SPARES FOR OLKARIA II POWER STATION.

(Open International)

Dated: 11th August, 2023

Clarification No.5.

In accordance with the **Tender for Supply of Turbine Spares for Olkaria II Power Station**, KenGen issues a **Clarification No.5** as follows:

No.	BIDDERS CLARIFICATION	KenGen's RESPONSE
1	<p>As per clarification -1, all the drawings are to be Sourced from Mitsubishi Heavy Industries. We propose to develop drawings at site for Blades and other spares.</p> <p>In such Case, can KENCO provide old components for us to develop drawings?</p>	<p>The provided drawings in the clarifications are as developed by Mitsubishi Heavy Industries (MHI) and should support/form the basis of the supply of required spares. Adherence to these drawings is critical to ensure the uniformity, quality and precision of the Turbine spares provided.</p> <p>We are not able to provide old components to develop drawings since they are not available. It may require us to stop the running units to achieve this, which is not practical. This may also be a time-consuming venture considering the urgency with which some of these components are required.</p>

SUPPLIER ACKNOWLEDGEMENT OF CLARIFICATION NO.5

We, the undersigned hereby certify that the Clarification No.5 is an integral part of the document and the alterations set out in Clarification has been incorporated in the Tender Proposal.
