## TENDER FOR PROVISION OF A-5 DAY COMPREHENSIVE COURSE ON MAINTENANCE AND TROUBLESHOOTING OF HYDRAULIC SYSTEMS.

(Citizen Contractors)

Dated: 17<sup>th</sup> January, 2025

### Clarification No.1

In accordance with the **Tender for Provision of A-5 Day Comprehensive Course on Maintenance and Troubleshooting of Hydraulic Systems**, KenGen issues **Clarification No.1** as follows:

NO.	CLARIFICATION SOUGHT	KENGEN'S RESPONSE
1	Whether the training location is fixed to Nairobi or can be conducted outside the city.	The training can be conducted outside Nairobi, but within the territory of Kenya.
2	Whether the training venue must be owned by the bidder or if hiring a compliant venue is acceptable.	The bidder may partner with the owner of a compliant venue.
3	Whether the training requires the use of actual hydraulic rigs or if a simulator would suffice.	Training requires use of actual hydraulic rigs
4	As per section Technical Requirements No 1 part (b) "Registration by the National Industrial Training Authority (NITA) for training services"  As per the tender technical requirements we would like clarification on the utilization of internationally accredited companies to conduct the training  Kindly advise on whether this is a valid allowance that can be undertaken.	Technical Requirement TR 1 (b) states: Registration by the National Industrial Training Authority (NITA) for training services <b>(5 Marks)</b>  A firm which has the NITA certificate for training services gets the marks allocated. However, the one which does not have the NITA certificate does not get the marks but will not be disqualified on that basis. Therefore, utilization of internationally accredited companies to conduct the training denies the bidder 5 marks during technical evaluation.

### SUPPLIER ACKNOWLEDGEMENT OF CLARIFICATION NO.1

We, the undersigned hereby certify that the clarification is an integral part of the document and the alterations set out in clarification has been incorporated in the tender document.
